

Postdoctoral Positions

(full time or part time: 50-100%)

are available starting in November 2026 or later
(initially for one year, with the prospect of extension for another year)

at the **Pharmaceutical Institute, Pharmaceutical & Medicinal Chemistry,**
Pharma Center Bonn, Bonn, Germany

Job description

Position 1: Research project focused on the molecular pharmacology and structural biology of receptors and enzymes. Techniques include, among others, cloning, expression and purification of membrane proteins, determination of cryo-EM structures, in vitro characterization of biologically active compounds, analysis of structure-activity relationships.

Position 2: Support in coordinating an interdisciplinary team of researchers, organisation of research meetings, drafting of scientific publications, etc. We are looking for a scientist who has a talent for and enjoys scientific writing, and interaction with people.

You will join an international, interactive, interdisciplinary team of researchers with diverse backgrounds and expertise. We will provide a fruitful research environment, excellent facilities and a competitive salary (TV-L E 13).

An at least very good Ph.D. degree in Medicinal Chemistry, Pharmacology, Organic Chemistry, Molecular Biology, Cell Biology, Biochemistry, or a related discipline is required. We expect motivation beyond the call of duty and the ability to work in a team.

Please send your application (including CV, publication list and contact information of two references) to:
